PROXIES

Solicitation of Proxies

This information circular - proxy statement is furnished in connection with the solicitation of proxies for use at our annual general meeting to be held on April 25, 2012 at 3:00 p.m. (Calgary time) in the Strand/Tivoli Room of the Metropolitan Conference Centre, 333 – 4th Avenue S.W., Calgary, Alberta, and at any adjournment thereof. The completed proxy form must be deposited at the offices of Valiant Trust Company, **Attention: Proxy Department, Suite 310, 606 – 4th Street S.W., Calgary, Alberta T2P 1T1, or deliver it by fax to (403) 233-2857 at least 24 hours, excluding Saturdays, Sundays and holidays, before the meeting or any adjournment thereof.** Registered shareholders may also use the internet at www.valianttrust.com to vote their shares. Shareholders will be prompted to enter the control number which is located on the form of proxy. Votes by internet must be received by 3:00 p.m. (Calgary time) on April 24, 2012 or at least 24 hours prior to the time of any adjournment of the meeting. The website may also be used to appoint a proxy holder to attend and vote at the meeting on the shareholder's behalf and to convey a shareholder's voting instructions. Solicitation of proxies will be primarily by mail, but some proxies may be solicited personally or by telephone, facsimile transmission or other electronic means by our officers, directors or employees at a nominal cost. The cost of solicitation will be borne by us.

Only shareholders of record at the close of business on March 12, 2012 will be entitled to vote at the meeting, unless that shareholder has transferred any common shares subsequent to that date and the transferee shareholder, not later than 10 days before the meeting, establishes ownership of the common shares and demands that the transferee's name be included on the list of shareholders entitled to vote at the meeting.

The instrument appointing a proxy must be in writing and must be executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation.

The persons named in the enclosed form of proxy are our officers. **As a shareholder, you have the right to appoint a person or company, who need not be a shareholder, to represent you at the meeting.** To exercise this right you should insert the name of the desired representative in the blank space provided on the form of proxy and strike out the other names or submit another appropriate proxy.

Advice to Beneficial Holders of Common Shares

The information set forth in this section is of significant importance to you if you do not hold your common shares in your own name. Only proxies deposited by shareholders whose names appear on our records as the registered holders of common shares can be recognized and acted upon at the meeting. If common shares are listed in your account statement provided by your broker, then in almost all cases those common shares will not be registered in your name on our records. Such common shares will likely be registered under the name of your broker or an agent of that broker. In Canada, the vast majority of such common shares are registered under the name of CDS & Co., the registration name for The Canadian Depository for Securities Limited, which acts as nominees for many Canadian brokerage firms. Common shares held by your broker or their nominee can only be voted upon your instructions. Without specific instructions, your broker or their nominee is prohibited from voting your common shares. We do not know for whose benefit the common shares registered in the name of CDS & Co. are held. The majority of common shares held in the United States are registered in the name of Cede & Co., the nominee for the Depository Trust Company, which is the United States equivalent of CDS Clearing and Depository Services Inc.

Applicable regulatory policy requires your broker to seek voting instructions from you in advance of the meeting. Every broker has its own mailing procedures and provides its own return instructions, which you should carefully follow in order to ensure that your common shares are voted at the meeting. Often, the form of proxy

supplied by your broker is identical to the form of proxy provided to registered shareholders. However, its purpose is limited to instructing the registered shareholder how to vote on your behalf. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Investor Communications, Canada, which mails a scannable voting instruction form in lieu of the form of proxy. You are asked to complete and return the voting instruction form to them by mail or facsimile. Alternately, you can call their toll-free telephone number or access the internet to vote your common shares. They then tabulate the results of all instructions received and provide appropriate instructions respecting the voting of common shares to be represented at the meeting. If you receive a voting instruction form from Broadridge Investor Communications, Canada it cannot be used as a proxy to vote common shares directly at the meeting as the proxy must be returned to them well in advance of the meeting in order to have the common shares voted.

Although you may not be recognized directly at the meeting for the purposes of voting common shares registered in the name of your broker, you may attend the meeting as a proxyholder for the registered holder and vote your common shares in that capacity. If you wish to attend the meeting and vote your own common shares, you must do so as proxyholder for the registered holder. To do this, you should enter your own name in the blank space on the applicable form of proxy provided to you and return the document to your broker or the agent of such broker in accordance with the instructions provided by such broker well in advance of the meeting.

Revocability of Proxy

You may revoke your proxy at any time prior to a vote. If you or the person you give your proxy to attend personally at the meeting, you or such person may revoke the proxy and vote in person. In addition to revocation in any other manner permitted by law, a proxy may be revoked by an instrument in writing executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation. To be effective, the instrument in writing must be deposited either at our head office at any time up to and including the last business day before the day of the meeting, or any adjournment thereof, at which the proxy is to be used, or with the chairman of the meeting on the day of the meeting, or any adjournment thereof.

Persons Making the Solicitation

This solicitation is made on behalf of our management. We will bear the costs incurred in the preparation and mailing of the form of proxy, notice of annual general meeting and this information circular – proxy statement. In addition to mailing forms of proxy, proxies may be solicited by personal interviews, or by other means of communication, by our directors, officers or employees who will not be remunerated therefor.

Exercise of Discretion by Proxy

The common shares represented by proxy in favour of management nominees will be voted on any poll at the meeting. Where you specify a choice with respect to any matter to be acted upon, the common shares will be voted or withheld from voting on any poll in accordance with the specification so made. If you do not provide instructions, your common shares will be voted in favour of the matters to be acted upon as set out herein. The persons appointed under the form of proxy which we have furnished are conferred with discretionary authority with respect to amendments or variations of those matters specified in the form of proxy and notice of annual general meeting and with respect to any other matters which may properly be brought before the meeting or any adjournment thereof. At the time of printing this information circular – proxy statement, we know of no such amendment, variation or other matter.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

We are authorized to issue an unlimited number of common shares without nominal or par value and 10,000,000 preferred shares without nominal or par value issuable in series. As at March 12, 2012, there were 29,395,086 common shares and no preferred shares outstanding. As a holder of common shares, you are entitled to one vote for each common share you own.

To the best of the knowledge of our directors and executive officers, as at March 12, 2012, no person or company beneficially owns, or controls or directs, directly or indirectly, 10% or more of our issued and outstanding common shares, except as set forth below:

Name	Number of Common Shares Beneficially Owned or Controlled or Directed, Directly or Indirectly	Percentage of Issued and Outstanding Common Shares
Franklin Templeton Investments Corp., on behalf of its division, Bissett Investment Management ⁽¹⁾ Toronto, Ontario	4,942,878	16.88%

Note:

(1) Based on an alternative monthly report dated January 10, 2012 filed on SEDAR at www.sedar.com.

As at March 12, 2012, our directors and executive officers, as a group, beneficially owned, or controlled or directed, directly or indirectly, 1,920,689 common shares or approximately 6.5% of our issued and outstanding common shares.

THE ARRANGEMENT

On January 1, 2011, Zargon Energy Trust (the "**Trust**") completed a plan of arrangement (the "**Arrangement**") pursuant to Section 193 of the *Business Corporations Act* (Alberta). The Arrangement involved an internal reorganization of the Trust and certain of its subsidiaries through which the trust structure was replaced with a corporate structure. Pursuant to the Arrangement, the Trust was reorganized into us and the Trust was dissolved. We operate under the name "Zargon Oil & Gas Ltd." and, together with our subsidiaries, own, directly or indirectly, the same assets owned by the Trust and its subsidiaries immediately prior to the Arrangement.

Pursuant to the Arrangement, the issued and outstanding trust units of the Trust were ultimately exchanged for our common shares on a one-for-one basis and the issued and outstanding exchangeable shares of Zargon Oil & Gas Ltd., were ultimately exchanged for our common shares on the basis of 1.84716 common shares for each outstanding exchangeable share. In addition, as part of the Arrangement, all outstanding incentive rights granted under the Trust's unit right incentive plans were assumed by us. Such trust unit incentive rights will continue to vest in accordance with the original terms thereof except that the holders of such rights will be entitled to receive our common shares in lieu of trust units of the Trust. No new rights will be granted under such plans but the plans will remain in place until such time as all outstanding rights granted thereunder have been exercised or expired. We have adopted a share award plan which became effective on January 1, 2011 which we are now using to meet our compensation objectives. See "*Incentive Plans*" below for a description of our share award plan.

Notes:

- (1) "Incentive Rights" include incentive rights granted under the Trust's unit right incentive plans which were assumed by us pursuant to the Arrangement and awards granted under our share award plan.
- (2) For 2011, the "Total Market Value of Securities Owned and Incentive Rights" was determined by multiplying the number of common shares held by the nominee as of March 12, 2012 by the closing price of our common shares on the Toronto Stock Exchange on such date (\$14.20), plus the number of common shares issuable upon exercise of share awards held multiplied by the closing price of our common shares on the Toronto Stock Exchange on such date, plus the number of common shares issuable upon exercise of incentive rights held multiplied by the difference between the closing price of our common shares on the Toronto Stock Exchange on such date (\$14.20) less the original grant price

- of the incentive rights for in-the-money incentive rights. For calculation purposes, no adjustment has been made to the number of common shares issuable upon exercise of share awards or the grant price of the incentive rights to give effect to distributions or dividends paid since the share award or incentive right was granted.
- (3) For 2010, the "Total Market Value of Securities Owned and Incentive Rights" was determined by multiplying the number of common shares held by the nominee as of March 10, 2011 by the closing price of our common shares on the Toronto Stock Exchange on such date (\$23.97), plus the number of common shares issuable upon exercise of share awards held multiplied by the closing price of our common shares on the Toronto Stock Exchange on such date, plus the number of common shares issuable upon exercise of incentive rights held multiplied by the difference between the closing price of our common shares on the Toronto Stock Exchange on such date (\$23.97) less the original grant price of the incentive rights for in-the-money incentive rights. For calculation purposes, no adjustment has been made to the number of common shares issuable upon exercise of share awards or the grant price of the incentive rights to give effect to distributions or dividends paid since the share award or incentive right was granted.
- (4) Mr. Harrison has control or direction over 71,013 common shares in 2011 and had control or direction over 71,913 common shares in 2010 that are held by clients of K.J. Harrison & Partners Inc. For the purposes of calculating Mr. Harrison's "Total Market Value of Securities Owned and Incentive Rights" the 71,013 common shares in 2011 and the 71,913 common shares in 2010 have not been included.

Additional Disclosure Relating to Proposed Directors

To the knowledge of our directors and executive officers, none of our proposed directors is, as of the date hereof, or has been within ten years before the date hereof, a director, chief executive officer or chief financial officer of any company (including us), that was subject to a cease trade order (including a management cease trade order), an order similar to a cease trade order or an order that denied the relevant company access to any exemption under securities legislation, in each case that was in effect for a period of more than 30 consecutive days (collectively, an "Order") that was issued while the proposed director was acting in the capacity as director, chief executive officer or chief financial officer or was subject to an Order that was issued after the proposed director ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while the proposed director was acting in the capacity as director, chief executive officer or chief financial officer. None of our proposed directors is, as of the date hereof, or has been within the ten years before the date hereof, a director or executive officer of any company (including us) that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets or has, within the ten years before the date hereof, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the director, executive officer or shareholder, other than Mr. Zawalsky who was a director of Efficient Energy Resources Ltd. (a private electrical generation company) which agreed to the voluntary appointment of a receiver in 2005.

In addition, none of our proposed directors has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority, or any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor in making an investment decision.

Majority Voting for Directors

Our board of directors has adopted a policy stipulating that if the votes in favour of the election of a director nominee at a shareholders' meeting represent less than a majority of the common shares voted and withheld, the nominee will submit his or her resignation promptly after the meeting, for the Governance and Nominating Committee's consideration. The Governance and Nominating Committee will make a recommendation to our board of directors after reviewing the matter, and our board of directors' decision to accept or reject the resignation offer will be disclosed to the public within 90 days of the applicable shareholders' meeting. Resignations shall be expected to be accepted except in situations where extenuating circumstances would warrant the applicable director to continue to serve as a board member. The nominee will not participate in any committee or board deliberations on the resignation offer. The policy does not apply in circumstances involving contested director elections.

Appointment of Auditors

Management is soliciting proxies, in the accompanying form of proxy, in favour of the appointment of the firm of Ernst & Young LLP, Chartered Accountants, as our auditors, to hold office until the next annual general meeting of our shareholders and to authorize the directors to fix their remuneration as such. See "*Audit Committee Information*" in our annual information form for the year ended December 31, 2011 for additional information including a description of fees we paid to Ernst & Young LLP during the past two years.

DIRECTORS COMPENSATION

Compensation of Directors

Our board of directors, through the governance and nominating committee, is responsible for the development and implementation of a compensation plan for our independent directors. Our directors who are also our officers are not paid any compensation for acting as a director.

The main objectives of our compensation plan for directors are to attract and retain the services of the most qualified individuals and to compensate our directors in a manner that is commensurate with the risks and responsibilities assumed in board and committee membership and at a level that is similar to the compensation paid to directors of a peer group of oil and gas companies. In addition, our philosophy of using compensation to foster a culture of ownership also extends to our director compensation policies. Our board of directors believes it is important that directors demonstrate their commitment to our stewardship through common share ownership. As a result, all of our independent directors are required to hold common shares with a total value aggregating not less than four times their annual board retainer. New directors have two years from being appointed to the board to comply with this policy. See "*Common Share Ownership Guidelines*" below.

We currently pay our outside directors, other than our Chairman, an annual board retainer of \$20,000 plus a fee of \$1,500 for each board meeting, \$1,500 for each telephone board meeting and \$1,500 for each committee meeting. We pay our Chairman an aggregate annual retainer of \$45,000, plus a fee of \$1,500 for each board meeting, \$1,500 for each telephone board meeting and \$1,500 for each committee meeting. We pay an annual retainer to the chairman of our audit committee of \$10,000. A \$5,000 retainer is paid to the chairmen of our compensation, governance and nominating and reserves committees, respectively. Outside directors are also reimbursed for their out-of-pocket expenses incurred in carrying out their duties as directors.

In 2011, a peer group review was conducted by our governance and nominating committee, with the results indicating that our directors' compensation is competitive with our peers. Director compensation is discussed on an annual basis and there have been no changes to our director's compensation arrangement since 2007.

The following table sets forth the principal elements of the compensation plan for the year ended December 31, 2011.

Compensation Element	Amount (\$)
Board Retainer - Annual	20,000
Additional Chair Retainers – Annual:	
Board	25,000
Audit	10,000
Compensation	5,000
Governance and Nominating	5,000
Reserves	5,000
Meeting Attendance Fee	1,500

Our outside directors were eligible to receive awards under the trust unit rights incentive plans of the Trust although participation was limited to 1% of the Trust's total outstanding trust units (including trust units issuable upon exchange of exchangeable shares of Zargon Oil & Gas Ltd. and other fully paid securities of any of the Trust's subsidiaries, partnerships, trusts or other controlled entities exchangeable into trust units of the Trust which were the

economic equivalent of the Trust's trust units including full voting rights). In addition, each non-management director's participation was limited to an annual grant value of \$100,000 or less, with the value of each grant calculated on the applicable grant date. Pursuant to the Arrangement, all outstanding incentive rights granted under the Trust's unit right incentive plans were assumed by us. Such trust unit incentive rights will continue to vest in accordance with the original terms thereof except that the holders of such rights will be entitled to receive our common shares in lieu of trust units of the Trust. No new rights will be granted under such plans but the plans will remain in place until such time as all outstanding rights granted thereunder have been exercised or expired.

Our share award plan became effective on January 1, 2011. Outside directors are eligible to receive awards under our share award plan. The participation of each non-management director in the share award plan is limited to the lesser of (a) 1% of our issued and outstanding common shares; and (b) an annual equity award value of \$100,000, with the value of each award calculated at the time of grant. See "*Incentive Plans*" for a description of our share award plan.

As at December 31, 2011, our outside directors held an aggregate of 171,800 incentive rights and share awards, which represented approximately 0.6% of our issued and outstanding common shares as at such date. For information regarding the outstanding incentive rights and share awards held by our independent directors as at December 31, 2011, see "*Outstanding Option-based and Share-based Awards*" and "*Incentive Plan Awards – Value Vested or Earned during the Year*" below.

Notes:

- (1) The value disclosed represents the fair value of these rights on the grant date using the Black-Scholes pricing model valued on the grant date, a methodology chosen due to its wide spread use in the energy industry. The Black Scholes fair value calculation includes weighted average assumptions such as a forfeiture rate, a volatility factor of expected market price, a risk-free interest rate and an expected life of the share based awards and option based awards. No adjustment has been made to the number of share awards granted during the year for the effect of the adjustment ratio calculation, as defined in the share award plan. The purpose of the adjustment ratio calculation is to modify previously granted share awards in lieu of actual dividends declared to shareholders.
- (2) Pursuant to the Arrangement, all outstanding incentive rights granted under the Trust's unit right incentive plans were assumed by us. Such trust unit incentive rights will continue to vest in accordance with the original terms thereof except that the holders of such rights will be entitled to receive our common shares in lieu of trust units of the Trust. No new rights will be granted under such plans but the plans will remain in place until such time as all outstanding rights granted thereunder have been exercised or expired.
- (3) Mr. Zawalsky is a partner at the law firm of Burnet, Duckworth & Palmer LLP, which receives fees for the provision of legal services to us.

- (2) Pursuant to the trust unit rights incentive plans, holders of rights have the option to elect to have the exercise price per right reduced to account for distributions paid on the trust units and dividends paid on our common shares subsequent to the grant date, provided that certain performance benchmarks are achieved. For calculation purposes, no adjustment has been made to the grant price to give effect to these adjustments.
- (3) Calculated based on the difference between the closing price of the common shares on the Toronto Stock Exchange on December 30, 2011 (being \$13.63) less the original grant price of the incentive rights for in-the-money incentive rights. For calculation purposes, no adjustment has been made to the grant price to give effect to dividends paid by us (or our predecessors) since the right was granted.

Common Share Ownership Guidelines

Directors (other than our President and Chief Executive Officer) are expected to own common shares having a market value of at least four times the amount of their annual board retainer. Directors are required to attain the minimum ownership level within a period of two years from the date of approval of the guideline or the date of their election or appointment, whichever is later.

Our President and Chief Executive Officer is expected to own common shares having a market value of at least two times his annual base salary. Our President and Chief Executive Officer is required to attain the target ownership level within a period of two years from the date of approval of the guideline or the date of his appointment, whichever is later.

In calculating ownership levels, common shares that an individual beneficially owns or controls or directs, directly or indirectly, may be counted. The ownership of common share incentive rights or share awards does not count towards these requirements.

Following the phase-in period, directors and the President and Chief Executive Officer are expected to be in continuous compliance with the guidelines. In the event that an individual who has achieved the target ownership level subsequently falls below such target ownership level due solely to a decline in the market price of our common shares, such individual shall be considered to be in compliance with our ownership guidelines as long as the adjusted cost base of his/her common shares exceeds the target ownership level.

The following table sets out the ownership levels of our President and Chief Executive Officer and each of our independent directors as at December 31, 2011.

Executive Compensation Discussion and Analysis

Compensation Objectives and Philosophy

Compensation plays an important role in achieving short and long term business objectives that ultimately drive business success. We have developed a compensation strategy built on offering a competitive compensation package, which is oriented toward developing a culture of ownership by making long term equity-based incentives, through the granting of incentive rights, a significant component of executive compensation. This approach is based on the assumption that the performance of our share price over the long term is an important indicator of long term performance.

Our compensation philosophy is based on the following fundamental principles:

- Compensation programs align with shareholder interests – we align the goals of our executives with maximizing long term shareholder value;
- Performance sensitive – compensation for our executive's should be linked to our operating and market performance; and
- Offer market competitive compensation to attract and retain talent – the compensation program should provide market competitive pay in terms of value and structure in order to retain existing employees who are performing according to their objectives and to attract new individuals of the highest calibre.

The objectives of our compensation program in compensating our executives were developed based on the above-mentioned compensation philosophy and are as follows:

- To attract and retain highly qualified executive officers;
- To align the interests of executive officers with shareholders' interests and with the execution of our business strategy;
- To evaluate executive performance on the basis of key measurements that correlate to long term shareholder value; and
- To tie compensation directly to those measurements and rewards based on achieving and exceeding predetermined objectives.

Compensation Governance

Our compensation committee assists our board of directors in fulfilling its responsibilities by monitoring our compensation plans and practises and ensuring their congruence with our objectives and goals by assessing and making recommendations regarding compensation, benefits, short and long term incentive programs and employee retention.

Our compensation committee is currently composed of three independent directors, Messrs. Peplinski (Chairman), Harrison and Zawalsky. Each is an independent member of our board and is knowledgeable about compensation design and administration. All of our compensation committee members have served as a senior executive officer and/or director of numerous organizations and have direct experience in executive and corporate compensation programs. Reference should also be made to each member's biography found under "Election of Directors" above.

The compensation committee annually reviews and recommends the compensation of members of the executive team, specifically the CEO and the Vice Presidents, and granting of long term incentives. Typically, recommendations regarding executive compensation and the granting of long term incentives are presented to the compensation committee in December with the year end bonus recommendations being presented in February.

Analysis of Compensation Practices of Competitors

Aggregate compensation for each executive officer is designed to be competitive. The Mercer Total Compensation Survey for the Petroleum Industry ("**Mercer**") was used to assist the Compensation Committee in its evaluation of compensation. The 2011 Mercer survey included data from 196 distinct participating organizations. Mercer classifies its survey data into several categories. For our overall base salary benchmarking purposes, the mean (average) of the following categories was used:

- Industry Segment: Fully Integrated Exploration and Production;
- Net Sales/Revenue: \$100 million < \$500 million
- Barrel of Oil Equivalent/Day: 5,000 < 10,000

The purpose of reviewing the Mercer data was to:

- Understand the competitiveness of current pay and bonus levels for each executive position relative to companies of similar size;
- Identify and understand any gaps that may exist between actual compensation levels and market compensation levels; and
- Establish as a basis for developing salary adjustments and short and long term incentive awards for the compensation committee's approval.

Elements of Compensation Plan

Our executive compensation package provides a balanced set of elements designed to deliver the objectives of our compensation philosophy. The fixed elements, salary and perquisites, provide a competitive base of secure compensation necessary to attract and retain executive talent. The variable elements, bonus and long term incentives are designed to balance short term gains with our long term interests and motivate the superior performance of both. Our long term incentive plan also aligns our executive's with shareholders and helps retain executive talent. Our employee savings plan further aligns our executive's with shareholders and allows executive's to accumulate wealth for retirement or other purposes. The combination of the fixed elements and the variable incentive opportunities delivers a competitive compensation package.

While our CEO and other executive's have a large proportion of their compensation "at risk", the quantum of the incentive compensation and the mix between short term and long term compensation is intended to discourage inappropriate risk taking and does not reward actions that could produce short term success at the cost of long term results.

In addition, pursuant to our insider trading policy, our directors, officers and employees are prohibited from selling any of our shares if such they do not own or have not fully paid for the shares to be sold, unless the director, officer or employee owns another security convertible into our shares and, within 10 days after the sale, such person exercises the conversion privilege, option or right and delivers the associated common share to the purchaser or transfers the convertible security, option or right, if transferable to the purchaser. Directors, officers and employees are also prohibited from buying or selling a call or put in respect of any of our securities.

Our CEO presents recommendations and rationale to our compensation committee regarding salary adjustments, bonuses and long term incentives for all staff. The focus of the discussion is on the individual executive salaries and bonuses with a review of the aggregate level of salary and bonuses for the balance of the staff. The compensation committee makes specific recommendations to our board of directors on our CEO's salary, bonus payments and incentive plan allocations. Our board of directors reviews all recommendations of the compensation committee before final approval. Any director who is also an officer is excused from the directors' meeting during any discussion of his compensation. Our compensation committee also approves the salaries, bonus payments and incentive plan allocations of all other senior officers.

In determining annual bonuses, raises and other compensation, our compensation committee considers overall corporate performance, performance across a number of operating measures such as production and reserves per share, finding and developments costs and recycle ratio, and advancement of our major projects to assess the operational effectiveness of the execution of our strategy, financial, regulatory and environmental compliance and other subjective elements such as the strengthening of staff resources, processes and internal communication and individual performance. The following sets forth the performance criteria considered by the compensation committee in determining annual bonuses, raises and other compensation:

The compensation committee considers the capital efficiency items of finding and development costs, production additions cost and operating netback in applying the compensation program. Other criteria consider the accomplishment of capital programs, various measures of corporate and regulatory compliance as well as overall health, safety and environment programs stewardship. The measures described here are considered as subjective factors and are not defined in such a way as to limit the authority of the compensation committee or to restrict the latitude they have to guide the compensation process.

Base Salary

In setting base salaries, our compensation committee, consistent with our long term policy, has targeted our executive's base salaries at a competitive range for comparable organizations in the oil and gas industry. Salaries reflect market conditions and levels of responsibility. Salaries of senior executive officers are determined utilizing salary survey information from comparator companies. In December of each year, our Chief Executive Officer makes salary recommendations to our compensation committee, which in turn makes its own recommendation to our board of directors.

The following table summarizes base salaries paid to our executive officers for the years ended December 31, 2010 and December 31, 2011.

Prior to assuming his current position, Mr. Dranchuk was our Vice President, Finance and Controller since November 2009. In recognition of additional workload and responsibility, Mr. Dranchuk received a salary increase, effective April 1, 2011. The amounts shown for 2010 and 2011 have not been annualized.
- (2) Effective October 1, 2010, Mr. Kergan assumed additional non-financial responsibilities as a result of the resignation of our Executive Vice President and Chief Financial Officer and therefore received a salary increase. The amount shown for 2010 has not been annualized.
- (3) Effective June 1, 2010, Mr. Buckley commenced employment as our Vice President, Geosciences. The amount shown for 2010 has not been annualized.

Prior to assuming his current position, Mr. Doetzel was our Production Manager, Williston Basin since July 6, 2009. The amount shown for 2011 has not been annualized.

Based on the Mercer 2010 fall update survey and referencing the exploration and production organizations producing less than 10,000 barrels of oil equivalent per day, Mercer had projected a 2011 salary increase of 3.9 percent (excluding zeros) for the 50th percentile of this category. Our overall corporate increase for 2011 was 3.8 percent. The average salary increases for our executive officers was 2.7 percent.

Bonuses

Our compensation committee approves targeted amounts of annual bonuses for each of our executive officers. The overall targeted bonus amount is determined based on market research prepared by Mercer. The compensation committee benchmarks the overall bonus target as the average of the 50th and 75th percentile of organizations producing less than 10,000 barrels of oil equivalent per day, which results in us aiming for performance better than average compared to our peers. If all targets are met, this methodology results in an amount that roughly aligns with industry benchmarking data. In 2011, our overall corporate targeted bonus amount was set at 23.9 percent of total salaries. The 2011 actual bonus was 17.3 percent (including executives) of total salaries.

Predetermined target bonuses for our executive officers range from 30 percent to 40 percent of annual salary. Actual bonuses paid as a percentage of the 2011 actual salary paid are then adjusted from the target based on the achievement of overall corporate, team and an individual's specific contribution and performance.

The following table summarizes bonuses paid to our executive officer's for the years ended December 31, 2010 and December 31, 2011.

Incentive Plans

In anticipation of our conversion from a trust to a corporation, our compensation committee reviewed and re-designed the longer term aspects of our executive compensation program.

The compensation committee's objectives for a new long term compensation program included the following:

- to provide incentives which encourage the long term sustained growth of the organization;
- to provide incentives which encourage the retention of highly skilled and talented employees; and
- to encourage and facilitate proprietary ownership of the organization.

As a result, our compensation committee recommended that our board of directors approve a five year share award plan which would provide for awards of common shares which will generally be issued from treasury that would vest in quarters over a four year period and expire on the fifth anniversary date of grant. This share award plan was approved by our shareholders in December 2010 and became effective January 1, 2011. As a result of the completion of the Arrangement and the associated implementation of the share award plan, our former trust unit incentive rights plans are being wound down. As part of the Arrangement, all outstanding incentive rights granted under these plans were assumed by us and such rights will continue to vest in accordance with the original terms thereof. However, no new rights will be granted under such plans and they will terminate when all rights existing thereunder have been exercised or expired. There are 905,675 common shares currently reserved for issuance under these former plans.

Our executive management participate in the share award plan and the terms and conditions of share awards granted under the plan are determined by our compensation committee. Previous grants are taken into account when considering new grants. Share awards for executives are generally approved annually and are granted in January, subject to the imposition of trading black-out periods, in which case share awards scheduled for grant will be granted subsequent to the end of the black-out period. Additional one time grants may also be awarded throughout the year to reward exemplary performance.

On January 24, 2011, an aggregate of 25,700 share awards were granted to our executive management pursuant to the share award incentive plan, see "*Incentive Plans*". These share awards provide for the awards of common shares which will vest quarterly every January 1 over a four year period commencing on January 1, 2012 and will expire on January 24, 2016.

On April 30, 2011 an aggregate of 42,300 share awards were granted to 15 individuals in the organization in recognition of their strong individual performances and contribution to our company. Of this one time long term incentive grant, an aggregate of 15,500 share awards were granted to Mr. Dranchuk, Mr. Kergan and Mr. Buckley. These share awards provide for the awards of common shares which will vest quarterly every January 1 over a four year period commencing on January 1, 2012 and will expire on January 31, 2016.

On January 12, 2012, an aggregate of 54,000 share awards were granted to our executive management pursuant to our share award incentive plan, see "*Incentive Plans*". These share awards provide for the awards of common shares which will vest quarterly every January 1 over a four year period commencing on January 1, 2013 and will expire on January 12, 2017.

Share Award Plan

The principal purposes of our share award plan are: (i) to retain and attract qualified certain directors, officers and employees for us and our subsidiaries, partnerships or other controlled entities; and (ii) to promote a proprietary interest in us by such persons and to encourage such persons to remain in our employ or service and put forth maximum efforts for the success of our business and affairs. Our share award plan is designed to encourage ownership and entrepreneurship on the part of our senior management and other employees. Our compensation committee believes that the plan aligns the interests of our executive officer's with shareholders.

In accordance with its terms, our board of directors has delegated the authority to administer the share award plan to our compensation committee. The compensation committee has the authority in its sole discretion to administer the plan and to exercise all the powers and authorities either specifically granted to it under the plan or necessary or advisable in the administration of the plan subject to and not inconsistent with the express provisions of the plan, including, without limitation, the authority to grant awards under the plan and to determine those persons to whom, and the time or times at which share awards shall be granted and become issuable.

Each share award entitles the holder be issued that number of common shares designated in the share award with such common shares to vest as to one-quarter every January 1 over a four year period with such share award to expire on the fifth anniversary of the date of grant (or such other vesting dates or expiry dates as may be determined by our compensation committee).

The plan provides for cumulative adjustments to the number of common shares to be issued pursuant to share awards on each date that dividends are paid on the common shares pursuant to the adjustment ratio set forth in the plan. Additionally, subject to the approval of the Toronto Stock Exchange, the plan also provides for an adjustment to the number of common shares to be issued or the payment or a cash equivalent amount in the case of a non-cash dividend in certain circumstances.

Unless otherwise approved by our shareholders, the number of common shares reserved for issuance from time to time pursuant to outstanding share awards granted and outstanding under the plan may not exceed the lesser of: (a) a number of common shares equal to 5% of the aggregate number of issued and outstanding common shares; and (b) a number of common shares equal to 10% of the aggregate number of issued and outstanding common shares less common shares reserved for issuance under our legacy trust unit incentive plans. This prescribed

maximum may be subsequently increased to any specified amount, provided the increase is authorized by a vote of our shareholders. If any share awards granted under the plan expire, terminate or are cancelled for any reason without having been settled in full, any unissued common shares to which such share awards relate will be available for the purposes of the granting of further share awards under the plan.

The plan also limits the level of participation of each holder. No one holder may be granted any share award which, together with all share awards then held by such holder, would entitle such holder to receive a number of common shares which is greater than 10% of our issued and outstanding common shares, calculated on an undiluted basis. In addition: (i) the number of common shares issuable to insiders at any time, under the plan and all of our other security based compensation arrangements, may not exceed 10% of our issued and outstanding common shares; and (ii) the number of common shares issued to insiders, within any one year period, under the plan and all of our other security based compensation arrangements, may not exceed 10% of our issued and outstanding common shares. Participation of each non-management director in the share award plan is also limited. Such participation may not exceed the lesser of: (a) 1% of our issued and outstanding common shares; and (b) an annual equity award value of \$100,000, with the value of each share award calculated at the time of grant.

In the event of a "change of control" of us (as such term is defined in the plan), all common shares awarded pursuant to any share awards to a holder that have not yet been issued as of such time shall be vested on the earlier of (i) the next applicable expiry date; and (ii) the date which is immediately prior to the date upon which the change of control is completed.

Unless otherwise determined by our compensation committee or unless otherwise expressly set forth in a share award agreement pertaining to a particular share award or any written employment or consulting agreement governing a holder's role as an employee, the following provisions shall apply in the event that a holder ceases to be a director, officer or employee of us (or of our subsidiaries, partnerships or other controlled entities):

- a) if a holder ceases to be a director, officer or employee for any reason whatsoever, including termination without cause, other than the death or disability of the holder (as contemplated under (b) below), there shall be no further vesting of any of such holder's share awards following the cessation date and all outstanding share award agreements under which share awards have been made to such holder shall be terminated and all rights to receive common shares thereunder shall be forfeited by the holder effective as of the earlier of (i) the date that is 30 days from the cessation date plus any black-out extension term if a black-out is in effect at the end of such 30 day period; and (ii) the expiry date otherwise relating to such share award;
- b) upon the death or disability of a holder, there shall be no further vesting of any of such holder's share awards following the cessation date and all outstanding share award agreements under which share awards have been made to such holder shall be terminated and all rights to receive common shares thereunder shall be forfeited by the holder effective as of the earlier of (i) the date that is six months from the cessation date and (ii) the expiry date otherwise relating to such share award.

Notwithstanding the foregoing, in the event that any of the early termination provisions conflict with or are inconsistent with the express terms of a written employment agreement between a holder and us, the terms of the employment agreement will govern.

The right to receive common shares pursuant to a share award granted to a holder may only be exercised by such holder personally or through the holder's personal representative or estate and no assignment, sale, transfer, pledge or charge of a share award, whether voluntary, involuntary, by operation of law or otherwise (except by will or the laws of descent and distribution), will vest any interest or right in such share award whatsoever in any assignee or transferee and, immediately upon any assignment, sale, transfer, pledge or charge or attempt to assign, sell, transfer, pledge or charge, such share award shall terminate and be of no further force or effect.

The share award plan and any share awards granted thereunder may be amended, modified or terminated by our board of directors without approval of our shareholders subject to any required approval of the Toronto Stock Exchange. Our compensation committee may also vary the vesting dates and expiry dates under the plan provided that the duration of any share awards shall not exceed seven (7) years. Notwithstanding the foregoing, the plan or any share award may not be amended without shareholder approval to: (a) increase the number of common shares

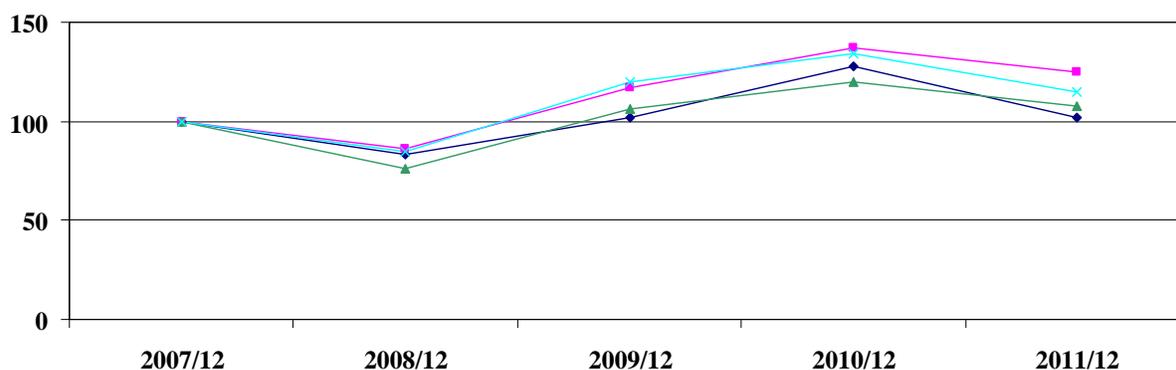

issuable on exercise of outstanding share awards at any time in excess of the limits described above; (b) extend the expiry date of any outstanding share awards; (c) permit a holder to transfer or assign share awards to a new beneficial holder other than for estate settlement purposes; (d) amend the limits on the permitted level of participation under the plan by non-management directors; (e) increase the number of common shares that may be issued to insiders above the restriction contained in the plan; or (f) amend the amending provisions of the plan to delete any of (a) through (e).

Employee Savings Plan

We also have an employee savings plan whereby all employees, including executive officers, are encouraged to contribute up to a maximum of 10% of their salary to the employee savings plan. The contributions by employees are equally matched by us. The funds are used to purchase common shares in the open market. Since the plan is available to all employees it has been successful in encouraging employees to become shareholders and promoting the principle of alignment with shareholders. Our compensation committee considers this program to be competitive. There is no other form of retirement or savings program. All of our executive officer's participated in the program in 2011. These amounts are included in the "All Other Compensation Category" on the Summary Compensation Table below.

Compensation for management is based on the achievement of certain pre-determined criteria at the beginning of each fiscal year. These criteria include capital efficiency measures (such as finding, development and acquisition costs), meeting of sustainability objectives (such as production, reserves and dividends on a per share basis) and other subjective objectives (such as the building of core area team capabilities and improving business processes in the organization). The achievement of these pre-determined objectives are reflected in the determination of the meeting of corporate, team and individual targets, as described earlier and do not necessarily track the changes in the market value of the common shares of the corporation.

Notes:

- (1) The value disclosed represents the fair value of these rights on the grant date using the Black-Scholes pricing model valued on the grant date, a methodology chosen due to its wide spread use in the energy industry. The Black Scholes fair value calculation includes weighted average assumptions such as a forfeiture rate, a volatility factor of expected market price, a risk-free interest rate and an expected life of the share based awards and option based awards. No adjustment has been made to the number of share awards granted during the year for the effect of the adjustment ratio calculation, as defined in the share award plan. The purpose of the adjustment ratio calculation is to modify previously granted share awards in lieu of actual dividends declared to shareholders.
- (2) Pursuant to the Arrangement, all outstanding incentive rights granted under the Trust's unit right incentive plans were assumed by us. Such trust unit incentive rights will continue to vest in accordance with the original terms thereof except that the holders of such rights will be entitled to receive our common shares in lieu of trust units of the Trust. No new rights will be granted under such plans but the plans will remain in place until such time as all outstanding rights granted thereunder have been exercised or expired.
- (3) The amounts in this column represent perquisites and other taxable benefits.
- (4) Effective October 1, 2010, Mr. Dranchuk was promoted to the position of Vice President, Finance and Chief Financial Officer. Prior to assuming his current position, Mr. Dranchuk was our Vice President, Finance and Controller since November 2009. The amounts shown for 2010 have not been annualized.

- (5) The 2010 "Annual incentive plans" amount includes a special bonus of \$25,000 paid to Mr. Kergan for his involvement in the acquisition of certain properties and the successful execution of our property disposition package.
- (6) Effective June 1, 2010, Mr. Buckley commenced employment as our Vice President, Geosciences. The amounts shown for 2010 have not been annualized.
- (7) Effective June 8, 2011, Mr. Doetzel was promoted to the position of Vice President, Operations and therefore received a salary increase. Prior to assuming his current position, Mr. Doetzel was our Production Manager, Williston Basin since July 6, 2009. The amounts shown for 2009 and 2011 have not been annualized.

- (1) Pursuant to the Arrangement, all outstanding incentive rights granted under the Trust's unit right incentive plans were assumed by us. Such trust unit incentive rights will continue to vest in accordance with the original terms thereof except that the holders of such rights will be entitled to receive our common shares in lieu of trust units of the Trust. No new rights will be granted under such plans but the plans will remain in place until such time as all outstanding rights granted thereunder have been exercised or expired.
- (2) Pursuant to the trust unit rights incentive plans, holders of rights have the option to elect to have the exercise price per right reduced to account for distributions paid on the trust units and dividends paid on our common shares subsequent to the grant date, provided that certain performance benchmarks are achieved. For calculation purposes, no adjustment has been made to the grant price to give effect to these adjustments.
- (3) Calculated based on the difference between the closing price of the common shares on the Toronto Stock Exchange on December 30, 2011 (being \$13.63) less the original grant price of the incentive rights for in-the-money incentive rights. For calculation purposes, no adjustment has been made to the grant price to give effect to dividends paid by us (or our predecessors) since the right was granted.

- (4) Calculated based on the closing price of our common shares on the Toronto Stock Exchange on December 30, 2011 (being \$13.63). No adjustment has been made to the number of share awards granted during the year for the effect of the adjustment ratio calculation, as defined in the share award plan. The purpose of the adjustment ratio calculation is to modify previously granted share awards in lieu of actual dividends declared to shareholders.

Pension Plan Benefits

We do not have any pension plans for our employees. We have established a savings plan to assist employees in meeting their savings goals. See "*Executive Compensation Discussion and Analysis – Employee Savings Plan*".

Employment Contracts

We have entered into employment agreements with each of the NEO's pursuant to which we have agreed to make a lump-sum payment to each executive in the event of termination without cause or if the executive elects to terminate his employment within 30 days following a "change of control". For these purposes, a "change of control" shall be deemed to occur upon the effective date of the earlier of any of the following event, provided that such event results in an actual change of control of us:

- a successful "take-over bid" (as defined in the *Securities Act* (Alberta), as amended, or any successor legislation thereto) pursuant to which the "offeror" as a result of such take-over bid, beneficially owns, directly or indirectly, in excess of 50% of our issued and outstanding common shares;
- the issuance to or acquisition by any person, or group of persons acting in concert, directly or indirectly, which in the aggregate total 50% or more of our then issued and outstanding common shares;
- the completion of an arrangement, merger or other form of reorganization of us where the holders of our outstanding voting securities or immediately prior to the completion of the arrangement, merger or other reorganization will hold 50% or less of the outstanding voting securities or interests of the continuing entity upon completion of the arrangement, merger or other form of reorganization; or
- the winding-up or termination of us or the sale, lease or transfer of all or substantially all of our directly or indirectly held assets to any other person or persons (other than pursuant to an internal reorganization or in circumstances where our business is continued and where the security holdings in the continuing entity are such that the transaction would not be considered a "Change of Control" if the third paragraph above were applicable to the transaction),

provided that notwithstanding the application of any of the foregoing, a "Change of Control" will be deemed to have not occurred if a majority of the board of directors, in good faith, determines that in substance the arrangement or reorganization has occurred or the circumstances are such that a Change of Control was not intended to occur in the particular circumstances in question and any such determination shall be binding and conclusive for all purposes.

The following table outlines the compensation arrangements that would be provided to our NEO's in the event of a change of control.

Note:

- (1) On February 5, 2009, our compensation committee approved amendments to our existing executive employment agreements. At that time, Mr. Hansen was permitted to retain his previously approved executive employment arrangements, which included a single-trigger, change of control provision. All subsequent executive employment agreements were approved with a double-trigger, change of control provision.

The following table sets forth the estimated incremental payments (rounded to the nearest thousand dollars) that would be made to each of our NEO's assuming that a change of control event (as described in the table above) occurred on December 31, 2011.

Notes:

- (1) The amounts in this column represent compensation for the loss of employment benefits.
- (2) On the effective date of the change of control, any unvested incentive rights vest and become immediately exercisable. Calculated based on the difference between the closing price of the common shares on the Toronto Stock Exchange on December 30, 2011 (being \$13.63) less the original grant price of the incentive rights for in-the-money incentive rights. The amounts shown in the table includes the in-the-money value of unvested share awards, which is calculated based on the closing price of our common shares on the Toronto Stock Exchange on December 30, 2011 (being \$13.63). No adjustment has been made to the number of share awards granted during the year for the effect of the adjustment ratio calculation, as defined in the share award plan. The purpose of the adjustment ratio calculation is to modify previously granted share awards in lieu of actual dividends declared to shareholders.

Liability Insurance of Directors and Officers

We maintain directors' and officers' liability insurance coverage in the amount of \$20 million for losses to us if we are required to reimburse directors and officers, where permitted, and for direct indemnity of directors and officers where corporate reimbursement is not permitted by law. This insurance protects us against liability (including costs), subject to standard policy exclusions, which may be incurred by our directors and/or officers acting in such capacity.

All of our directors and officers are covered by the policy and the amount of insurance applies collectively to all. The cost of this insurance in 2011 was \$81,225 per annum. The term of the policy is from December 1, 2011 to December 1, 2012.

In addition, we have entered into indemnity agreements with each of our directors and officers pursuant to which we have agreed to indemnify such directors and officers from liability arising in connection with the performance of their duties. Such indemnity agreements conform to the provisions of the *Business Corporations Act* (Alberta).

Pursuant to our by-laws, we have also indemnified, to the maximum extent permitted under the *Business Corporations Act* (Alberta), each of our directors and officers and each of our former directors and officers, and we may indemnify a person who acts or acted at our request as a director or officer of a body corporate of which we are or was a shareholder or creditor, and their heirs and legal representatives, against all costs, charges and expenses, including any amount paid to settle an action or satisfy a judgment, reasonably incurred by him or her in respect of any civil, criminal or administrative action or proceeding to which he or she is made a party by reason of being or having been a director or officer of us or such body corporate.
